

SECUIDEA\_ERP\_Server.Models.  
Authentication.JwtService.JwtService

```
graph LR; A[SECUIDEA_ERP_Server.Models.  
Authentication.JwtService.JwtService] --> B[SECUIDEA_ERP_Server.Models.  
Authentication.JwtService.LoadJwt  
Settings];
```

A diagram showing a call from the `JwtService` class to the `LoadJwtSettings` method. The `JwtService` class is represented by a white box with a black border, and the `LoadJwtSettings` method is represented by a gray box with a black border. A blue arrow points from the `JwtService` box to the `LoadJwtSettings` box.
